SYNCSTEAD

سينكستيد

COMPANY PROFILE · 2026

The Saudi Human Capital platform for companies that run on people.

HR, payroll, attendance, talent and organization design in one bilingual system, built around Saudi labour law for companies of 200 to 20,000 employees.

Saudi rules built in
Labour law, GOSI, Nitaqat, Hijri

Arabic & English
Equal on every screen

Three packages
Core · Professional · Enterprise

Live in weeks
With a parallel payroll run

Riyadh, Saudi Arabia

syncstead.com.sa

WHO WE ARE

Built by HR practitioners, for Saudi leadership teams.

Syncstead is a Saudi company headquartered in Riyadh. We build one system that runs the whole employee lifecycle, from hiring to end of service, with Saudi regulation in its core rather than added through customization.

Our founder is an HR and governance practitioner. Every screen is designed around how Saudi HR, finance and leadership teams actually decide, approve and report.

24
modules on one platform, from core HR to succession planning

60K+
payslips matched an independent recalculation in our scale tests

2
languages, Arabic and English, equal on every screen and report

4–16
weeks from contract to the first live payroll, by company size

WHY SYNCSTEAD

Six reasons it fits Saudi companies.

Saudi rules built in, not bolted on

Labour-law calculations, GOSI, end of service, Nitaqat and Hijri dates are part of the core. Rule updates reach you without a customization project.

Every decision shows its cost first

A raise, a hire or a restructure shows its cost and Saudization effect before it is approved, so leadership decides with the numbers in front of them.

Packages sized to you, one platform

Start on the package that fits your size and move up in one click as you grow. Your data, set-up and history stay exactly where they are.

Governance by design

Approval paths you set, a complete audit trail, role-based access and confidential pay for executives. Designed by governance practitioners.

Live in weeks, not months

Your structure is built from your Excel staff list. Payroll runs in parallel with your current method and is reconciled to the riyal before you switch.

Your data under your control

Designed around the PDPL, with each company's data kept separate. AI features stay off until your administrator switches them on.

THE PLATFORM

Every people process, from hire to retire, in one system.

One employee record feeds payroll, attendance, talent and planning, so numbers agree everywhere and nothing is typed twice.

Core HR & employee files

Records, contracts, documents with expiry alerts, visas and iqama services, onboarding, probation and exits, assets.

Payroll & end of service

Monthly and off-cycle runs, allowances, loans, overtime, GOSI, sick-leave tiers, end of service, salary files for your bank or Mudad upload, finance journal.

Time, attendance & leave

Shifts, work sites with GPS check-in, fingerprint devices, overtime, leave policies and balances, Saudi public holidays.

Talent

Careers page, candidates, interviews and offers; performance reviews with calibration; learning; succession and talent pools.

Organization & workforce planning

Org chart, job architecture and grades, restructure modeling with cost impact, priced manpower plans by department.

Compensation & rewards

Salary structures, merit cycles with budgets, bonuses and rewards, salary changes approved with their cost shown.

Services & approvals

Letters, expenses and business trips, help desk, news and surveys; approval paths with delegation and escalation.

Compliance & employee relations

Saudization and Nitaqat tracking, labour-law calculations, medical insurance, disciplinary cases handled by the book.

Reports & analytics

Headcount, cost, turnover and Saudization by department and month, payroll variance, exported to Excel for the board pack.

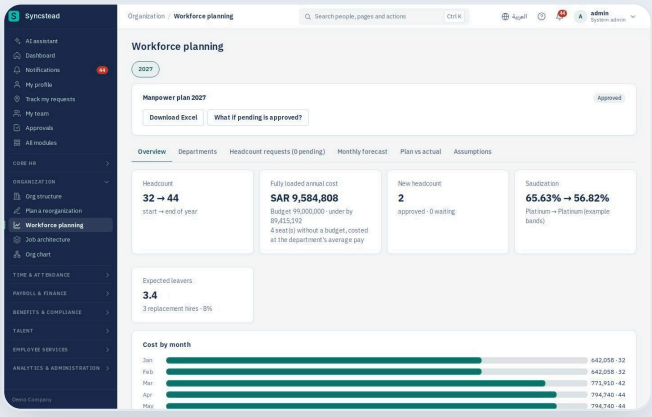

AI assistant

Answers employee questions on leave and pay, drafts job descriptions in Arabic and English. Off until your administrator agrees.

FOR THE LEADERSHIP TEAM

Test a reorganization before you make it.

Model a new structure or next year's manpower plan and see the effect on cost, layers, spans of control and Saudization before anything goes live.

PACKAGES

Three packages. One platform. Switch in one click.

Every package runs on the same system, so moving up never means a migration. Modules switch on the moment you upgrade, and all your data stays in place.

Included in every package

- Employees, documents and contracts
- Payroll, GOSI and end of service
- Bank and Mudad salary files
- Leave, letters and requests
- Approval paths with escalation
- Employee self-service on mobile
- Arabic and English, Hijri dates
- 2-step sign-in and audit trail
- Guided set-up and training

Core

Run HR, payroll and attendance in one place.

Up to 300 employees

Adds to the essentials:

- Attendance and shifts
- Expenses and trips
- Visas and iqama services
- Org structure and job architecture
- Medical insurance
- Saudization
- Assets
- Onboarding, probation and exits
- Reports

Email support and guided set-up

FOR GROWING COMPANIES

Professional

Add talent, rewards and employee services.

300 to 1,500 employees

Everything in Core, plus:

- Recruiting and interviews
- Performance and reviews
- Learning
- Compensation, merit and rewards
- Employee relations and discipline
- Help desk, news and surveys
- AI assistant
- Single sign-on (Microsoft, Google, Okta)

Priority support and an implementation manager to go-live

Enterprise

The full platform for large companies and groups.

1,500+ employees or groups

Everything in Professional, plus:

- Succession and talent pools
- Org design and workforce planning
- Group view across several companies
- Sandbox: a test copy of your company
- API and webhooks

Dedicated account manager, service levels and quarterly reviews

Recommended for your size

The system suggests the package that fits your headcount and structure.

Upgrade in one click

Request it from your Admin center; new modules open straight away.

Nothing is ever lost

Changing package keeps every record, setting and history.

BUILT FOR SCALE

Tested at the size of the Kingdom's largest groups.

Before we offer Syncstead to large employers, we test it on full-size models of real Saudi groups: holding companies, real estate and food production, with every branch, grade and shift pattern.

60,916
payslips recalculated independently, matched to the riyal

Exact
leave pay and end of service at exit, including unpaid-leave rules

Every night
alerts and checks run for each company on its own, so one large client never slows another

SECURITY & GOVERNANCE

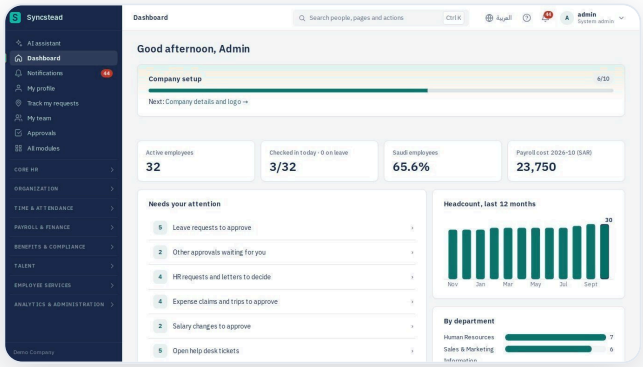

Controls your auditors expect.

- Each company's data kept fully separate
- Role-based access, with confidential pay for executives
- 2-step sign-in; single sign-on with Microsoft, Google or Okta
- Full audit trail of every change and approval
- Two approvers on payroll before it can be paid
- Encrypted connections, protected passwords, daily backups
- Full company backup on demand, in open file formats
- Data processing agreement signed before go-live

FOR LEADERSHIP

Headcount, cost and Saudization at a glance.

Live figures by department and month, ready for the board pack in Excel.

ONE SYSTEM, EVERY CHANNEL

Web workspace
For HR, finance and leadership

Mobile
Self-service, approvals and GPS check-in

Attendance devices
Fingerprint terminals feed attendance

Bank & finance
Salary files and journals for SAP, Oracle, Dynamics, Odoo and more

Excel in and out
Import staff and structure, export any report

API & webhooks
Connect your own systems (Enterprise)

HOW WE COMPARE

Enterprise depth, without the enterprise project.

	SYNCSTEAD	GLOBAL ERP SUITES	TYPICAL HR APPS
Saudi regulation	**Built into the core**	Through partners and customization	Mostly covered
Arabic and English	**Equal, on every screen**	Often English first	Varies
Packages	**Three, sized by headcount; switch in one click**	Licensed module by module	Tiers and paid add-ons
Cost of decisions	**Shown before every raise, hire or restructure**	Separate planning tools	Rarely offered
Approval paths	**Yours to design, with stand-ins and escalation**	Flexible, set up by consultants	Fixed or basic
Time to go live	**Weeks, with a parallel payroll run**	Often several months	Weeks

Comparison reflects typical offers in the Saudi market and may differ by provider.

FROM DECISION TO GO-LIVE

WEEK 1
Discover
Your policies, pay rules, approvals and the package that fits.

WEEKS 2–4
Configure
Structure, staff data and balances imported and checked.

1–2 CYCLES
Parallel payroll
Run beside your current method and reconciled to the riyal.

30 DAYS
Go-live support
Training for HR and managers, then close daily support.

BUILT FOR ANY SAUDI COMPANY WITH 200+ EMPLOYEES

Healthcare · Private schools · Multi-branch retail · Contracting and construction · Manufacturing · Food production · Real estate · Hospitality · Logistics · Holding groups

FOUNDING PARTNERS PROGRAM

See Syncstead with your own structure.

A limited number of companies join on founding terms, with full set-up and training. A tailored proposal follows our first meeting.
