SYNCSTEAD

سينكستيد

INTEGRATED HR PLATFORM FOR SAUDI COMPANIES OF 200+ EMPLOYEES

Full control of your workforce, cost and compliance.

One system for HR, payroll, attendance, talent and organization design. Built around Saudi regulation, in Arabic and English.

WEB · MOBILE · ATTENDANCE DEVICES · EXCEL AND BANK FILES

syncstead.com.sa

WHY SYNCSTEAD

Six reasons it fits Saudi leadership teams.

Saudi rules built in, not bolted on

Saudi Labour Law calculations, GOSI, end-of-service, Nitaqat and Hijri dates are part of the core, so rule updates reach you without a customization project.

Every module, one subscription

Payroll, attendance, talent and organization design are all included. No add-ons to buy as your needs grow.

Test a reorganization before you make it

Model a new structure and see the effect on cost, management layers and spans of control before it goes live.

Governance by design

Approval paths you set, a full audit trail, and role-based access. Designed by HR and governance practitioners.

Live in weeks, not months

Your structure is built from your Excel staff list. One payroll runs in parallel before you switch.

Your data under your control

Designed around the PDPL, with each organization's data kept separate. AI features stay off unless your administrator switches them on.

How we compare

	Syncstead	Global ERP suites	Typical HR apps
Saudi regulation	Built into the core	Through partners and customization	Mostly covered
Arabic and English	Equal, on every screen	Often English-first	Varies
Modules included	All, in one subscription	Licensed module by module	Often tiers and add-ons
Time to go live	Weeks, with a parallel payroll run	Often several months	Weeks
Organization design and workforce planning	Included, with cost impact	Separate module or tool	Rarely offered
Approval paths	Yours to design, with stand-ins and escalation	Flexible, set up by consultants	Fixed or basic
Evaluation	Founding Partners Program, no setup fee	Paid proof of concept	Short demo trial

THE PLATFORM

Every HR process, from hire to retire, in one system.

Core HR
Employee records, contracts, documents and expiry alerts, onboarding and exits, assets

Payroll and compensation
Payroll runs, allowances, loans, GOSI calculation, salary transfer files, end-of-service, salary changes, medical insurance

Time and attendance
Shifts, work sites, overtime, leave policies and balances, public holidays

Talent
Careers page, candidates, interviews and offers, performance reviews, training, surveys

Organization and planning
Org structure and chart, job architecture and grades, reorganization modeling, manpower plans

Requests and approvals
Letters, expenses and business trips, help desk, approval paths with delegation and escalation

Compliance
Saudization and Nitaqat tracking, labour-law calculations, Hijri and Gregorian calendars

Insight and governance
Headcount, cost and turnover reports, audit trail, roles and permissions, optional AI assistant

Use it the way each team works

ONE SYSTEM, EVERY CHANNEL

Web, on desktop and laptop
Full workspace for HR, finance and leadership

Mobile and tablet
Self-service and approvals, nothing to install

Attendance devices
Fingerprint terminals, or check-in at a set work site

Bank files
Salary transfer files, ready each month

Excel in and out
Import staff and structure, export any report

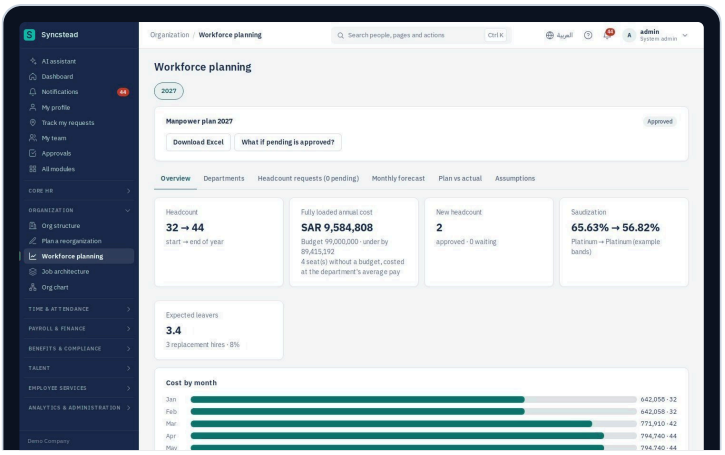

Email and in-app alerts
Approvals, reminders and expiry notices

Arabic and English on every channel. Cloud hosted.

FOR THE LEADERSHIP TEAM

Headcount, cost and Saudization at a glance.

Live reports by department and month, exported to Excel when the board pack is due.

From decision to go-live

WEEK 1
Discover
Your policies, pay rules and approval needs

WEEKS 2–4
Configure
Structure, staff data and balances imported and checked

ONE CYCLE
Parallel run
Payroll runs beside your current method and is reconciled

30 DAYS
Go-live support
Training for HR and managers, then close support

Security and data protection

· Each organization's data kept separate

· Full audit trail of changes and approvals

· Automatic database backups

· Role-based access for every user

· Encrypted connections and protected passwords

· Data processing agreement signed before go-live

Built for any Saudi company with 200+ employees

The system adapts to each sector's shifts, contracts and branches. Sectors we serve include:

Healthcare · **Private schools** · **Multi-branch retail** · **Contracting and construction** · **Manufacturing** · **Hospitality and restaurants** · **Logistics and transport** · **Holding groups and services**

Join the Founding Partners Program.

A limited number of companies. Full setup and training at no setup fee. A tailored proposal follows our first meeting.
